Salman Al-Rashidi

Al Arifi Street, Hail, 55431 • (+966) 501552698• Sl6mano@gmail.com •linkedin

I am a recent Computer Science graduate from the University of Hail with comprehensive expertise in data analytics, full-stack development, and project management. My practical experience includes analyzing complex datasets, developing web and mobile applications, and creating data-driven solutions that support business operations.

I combine strong analytical skills with programming capabilities to solve real-world problems and deliver measurable results. As an ambitious professional, I am eager to contribute my diverse technical skill set to organizational success while growing within a leading company that values innovation and excellence.

Experience

January 2025 – August 2025
Data Analyst & Full Stack Developer | Hail Region Municipality | Part-Time

- **- Analyzed municipal datasets** using Excel, Power BI, and Python to extract actionable insights and create comprehensive reports that improved decision-making processes and enhanced public service delivery
- **- Developed data-driven web platform** displaying municipal information through intuitive interface, making government data accessible to citizens (View Project)
- **- Built comprehensive graduation project website** using PHP backend, JavaScript, HTML, CSS, and Firebase integration, featuring complete user authentication and dynamic content management system
- **- Implemented data visualization components** converting analyzed datasets into web-friendly formats for public accessibility and stakeholder review
- **Developed full-stack solutions** combining frontend technologies (HTML, CSS, JavaScript) with PHP server-side programming and Firebase cloud services for data presentation and user management

Skills

Data Analytics: Python (Pandas, NumPy), Power BI, Excel, Statistical analysis, Data visualization, Business intelligence
Programming Languages: Python, Java, PHP, JavaScript, HTML, CSS, SQL, C#
Full Stack Development: React.js, Node.js, Frontend frameworks, Backend architecture, RESTful APIs
Database Management: MySQL, PostgreSQL, Firebase, SQL Server, Database design
Project Management: Agile methodologies, Team leadership, Timeline coordination, Quality assurance
Mobile Development: Flutter, React Native, Firebase integration
Cloud & Tools: Firebase, Git, Visual Studio Code, Postman

Education

August 2025

Bachelor of Science in Computer Science | University of Hail | Hail, Saudi Arabia
PROFESSIONAL CERTIFICATIONS

- **Google Data Analytics**
- **Google Project Management**
- **Build Wireframes and Low-Fidelity Prototypes**
- **Artificial Intelligence Fundamentals**
- **Cybersecurity Fundamentals**
